bridge to success

> ineo+ 4065

Be creative

Equipped with booklet and staple finishing, 2-sided banner printing, high productivity up to 66 ppm, excellent image quality and so much more, the ineo+ 4065 from Develop really offers everything in a compact printing environment. This revolutionary color production press printer has all the features to your business needs to easily develop new revenue streams and expand into new markets.

Exceptional quality, every print

The entry-level machine does not make a compromise when it comes to print quality. State-of the art image processing technologies such as S.E.A.D. X ensure a reliable and consistent output.

Grow your business

The ineo+ 4065 expands your business with new capabilities. Our system offers the highest media variety in the market, from thin to thick paper, embossed paper, envelopes and many more. Supported by our new optional media sensor to guarantee worry-free operation.

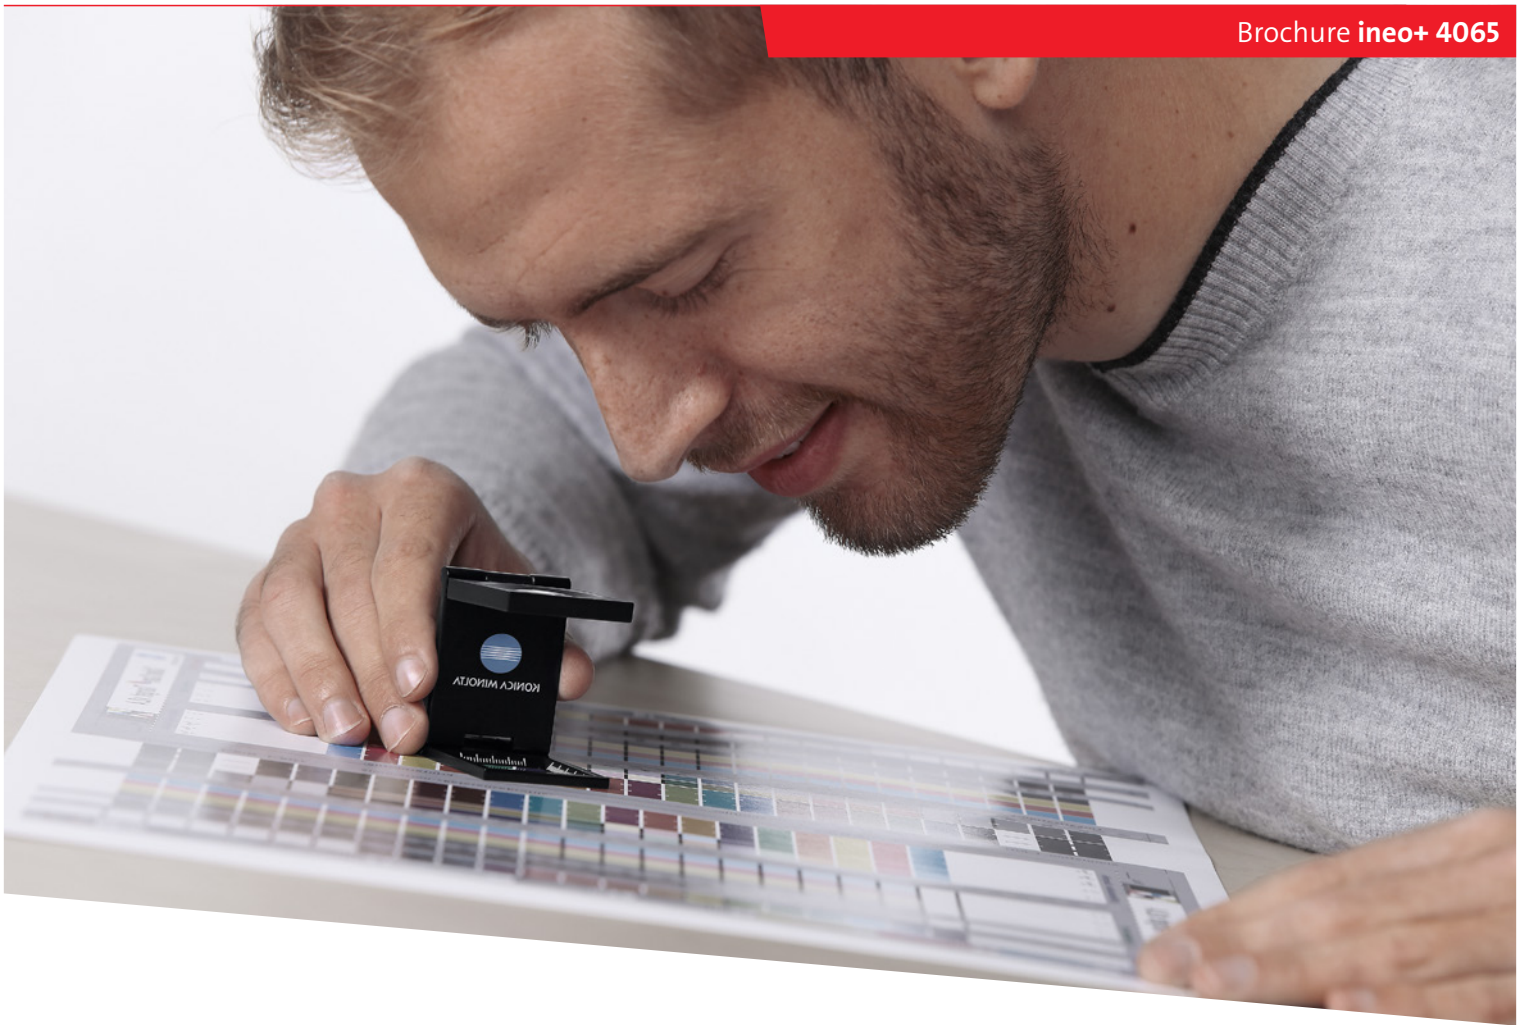

A compact engine does it all

The ineo+ 4065 is a clever press to expand your business as you wish. You can print flat sheets, duplex long sheets of up to 864 mm, or directly finish prints inline.

Boost efficiency

Operators of any ineo+ system can count on simple setup, an ultra-reliable paper path, exceptional productivity and outstanding automated image stability. Our R&D Team has given highest priority to fulfilling today's high demands in the printing industry. What's more, the ineo+ system seamlessly integrates into various software applications from our portfolio that will make your business more economic.

Innovate Print

Simitri® HD E toner

Simitri® HD E ensures consistently excellent image output quality on par with offset quality. The images produced have razor-sharp edges and lines, outstandingly solid colours, and brilliant half-tone and skin-tone quality. The secret behind the quality of Simitri® HD E toner is that it was engineered to easily follow the roughness of the paper surface to achieve an optimised and natural lustre for each type of paper – from glossy and matt coated paper to non-coated paper.

Simitri HD E
THE EVOLUTION OF TECHNOLOGY

S.E.A.D. X Image Processing

Advanced colour processing technology of the fifth generation is called S.E.A.D. X, which stands for “Screen-Enhancing Active Digital Process”, and combines an array of technical innovations to guarantee truly exceptional colour reproduction at top speed.

S.E.A.D. X

Media Detection Sensor

The optional media sensor IM-101 automatically detects the type, weight, thickness and surface of each substrate, and proposes the appropriate paper settings from the catalogue,

which makes wrong paper settings a thing of the past avoiding misprints and waste.

State-of-the-art print server

The IC-607 Develop own controller

The Develop IC-607 print controller brings powerful workflow benefits – including 2,400 dpi printing at full rated engine speed, high-speed RIP processing, enhanced accuracy in colour reproduction, colour management functions and full compatibility with print engine on-board job control and editing functions.

The IC-419 Internal Fiery image controller

As the embedded Fiery® controller alternative, the IC-419 offers a combination of affordability, versatile colour management and PCL support plus a wide range of security features. It helps improve the ease of use of ineo+ systems, and simplifies workflows so that our digital colour presses deliver truly professional print results, making any configuration an ideal business solution for your company's printing facilities.

Streamline your production

Your Workflow

Evolving from our expertise in precision technologies and more than 80 years of experience in the printing and imaging industries, AccurioPro reflects our commitment to developing market-shaping technology with functionality that enables your business to grow. AccurioPro, DEVELOP's suite of digital solutions for professional printing, is one of the industry's most versatile and powerful tools to optimise print production operations and workflows.

For all printing companies looking to integrate their printing as well as businesses that use digital printing to produce their own in-house publications and promotional materials, AccurioPro boosts speed and efficiency, expands capabilities and services, and reduces the need for operational manpower – all of which will help improve your profitability!

The comprehensive suite of features that AccurioPro offers includes centralised management, software for automated workflow processing, colour management, seamless integration of different printing technologies and full connectivity of all DEVELOP printing systems used from input to output.

ineo+ Possibilities

Your advantages with the ineo+ 4065

Production Printing

Ready-Made print products

- > Stacking of up to 4,200 sheets
- > Two-point and corner Stapling of up to 100 sheets with automatic staple cut mechanism
- > Booklet Making up to 80 pages (20 sheets)
- > 2- and 4 -hole punching
- > Tri-folding up to 3 sheets

HIGHEST RELIABILITY

- > Long-life platform, long-lasting parts and consumables
- > Accurate front to back registration
- > Fusing-rolling mechanism

Durable performance

ineo+ 4065

- > Up to 66 A4 color pages per minute
- > Up to 37 A3 color pages per minute

Perfect image quality

- > S.E.A.D. X technology and 3,600 x 2,400 dpi equiv. 8 bit resolution
- > Simitri HDe toner technology
- > Image density control technology

Enhanced scanning performance

- > The dual scanner scans documents in one path
- > Double sheet detector
- > Max. 280 ipm (A4, 300 dpi)
- > Scanner capacity of 300 sheets

High-end print control

- > Flexible choice of controller technology: EFI® or proprietary Develop controller
- > Integration into hybrid workflows

Ease of use

- > Simple paper catalogue settings
- > Operator Replaceable Unit Management
- > Open API/IWS support

Comprehensive media processing

- > Up to 360 gsm paper weight in simplex and duplex
- > Optional media sensor estimates paper weight and type
- > Envelope print function as standard
- > Support for embossed paper

Sophisticated media handling

- > Air suction or air-assisted paper feeding technology as an option
- > Long sheet printing of up to 1,300 mm (simplex), 864 mm (duplex)

10 good reasons for ineo+ 4065

1. Simply efficient

with Media Detection Sensor, Intelligent Quality Optimizer and many unique inline finishing options.

2. Perfect image quality

with DEVELOP's unique toner and processing technologies.

3. SEAMLESS INTEGRATION

into DEVELOP's application portfolio.

4. SMART AND COMPACT DESIGN

with robust printing features

5. ENHANCE YOUR RANGE OF PRINT OFFERINGS

and fulfill today's demands for versatile and creative print products.

6. OUTSTANDING PAPER COMPATIBILITY

Media up to 360 gsm. Excellent versatility with class leading banner printing, envelop printing and texture printing capabilities.

7. HIGH RELIABILITY

with long-lasting parts and robust construction

8. LOW LEARNING CURVES

Precise colour matching, even for notice operators, avoids or at least minimises learning curves.

9. BENEFIT FROM GREAT BUILT-IN TECHNOLOGIES

e.g. the latest screening and registration technologies.

10. HIGH OUTPUT EVEN WITHOUT SKILLS

by improved technologies.

Take the lead and show responsibility

Tomorrows business

Commercial printers

The ineo+ 4065 supports you in growing your business and getting the most out of your investment. Its high speed, high productivity and high uptime help you achieve shortest turnaround times, while the great media flexibility with stocks of up to 360 gsm, long sheets of up to 1,300 mm, envelopes and structured media will further enhance the variety of our print offerings.

CRDs

The ineo+ 4065 provides the highest degree of automation and produces quality on the highest level. With its professional inline finishing, you can create ready-made products at the push of a button. The versatile media flexibility and high productivity make the series a solid and lucrative investment for the future.

Sustainability

Develop promotes sustainable development and integrates environmental and social perspectives into its business strategies. In building your business, you can rely on Develop products to underpin your green strategy.

Committed to help prevent global warming, Develop strives to reduce CO₂ emissions during product manufacture, product distribution, at the sales stage, and during product use – with even stricter targets than demanded by the Kyoto Protocol.

Controller and options

Fiery image controller IC-419

| | |
|---------------------------|--|
| Architecture | Internal |
| OS | Linux |
| CPU | Intel® Pentium® Processor G4400 |
| Clock speed | 3.3 GHz |
| RAM std | 8 GB |
| HDD | 500 GB |
| Page-description language | Adobe PostScript 3; native PDF print support V2.0; 183 Adobe PS fonts; APPE v5; PCL5/PCL6; Optimized PDF & PS; Fiery FreeForm Plus; Fiery FreeForm |
| Applicable OS | Windows 8.1/10; Windows Server 2012/2016/2019; Mac OS X 10.11–15 |

Develop image controller IC-607

| | |
|---------------------------|--|

Technical specifications

System specifications

| | |
|--------------------------|--|
| Resolution | 3,600 x 2,400 dpi equiv. 8 bit |
| Paper weight | 62 – 360 g/m ² |
| Paper sizes | 330.2 x 487.7 mm 330.2 x 864 mm (max. duplex) 330.2 x 1300 mm (max. simplex) |
| Paper input | Max.: 7,500 sheets |
| Dimension (WxDxH) | 800 x 903 x 1076 mm |
| Unit weight | 316 kg |

Productivity

| | |
|-----------------------------|--------|
| Ineo+ 4065 | |
| A4 – max. per minute | 66 ppm |
| A3 – max. per minute | 37 ppm |

- All specifications refer to A4-size paper of 80 g/m² quality.
- The support and availability of the listed specifications and functionalities varies depending on operating systems, applications and network protocols as well as network and system configurations.
- The stated life expectancy of each consumable is based on specific operating conditions such as page coverage for a particular page size (5% coverage of A4). The actual life of each consumable will vary depending on use and other printing variables including page coverage, page size, media type, continuous or intermittent printing, ambient temperature and humidity.
- Some of the product illustrations contain optional accessories.
- Specifications and accessories are based on the information available at the time of printing and are subject to change without notice.
- DEVELOP does not warrant that any prices or specifications mentioned will be error-free.
- All brand and product names may be registered trademarks or trademarks of their respective holders and are hereby acknowledged.
